Completely dye-free, the yarn retains the fibre's natural softness, breathability, and durability while offering a biodegradable, lower-impact alternative.

Using only blending, carding, and spinning processes, Aurora Eco represents cashmere in its purest form and is part of our essential program supporting full fibre traceability, more sustainable supply chains, and reduced environmental impact. Dry flat, do not tumble dry

Iron at a cool setting

RECOMMENDED FINISHING:
A two bath method, using a designated detergent, will give the optimum handle. The first bath is designed to remove the spinning oil and residual dyestuffs and the second to mill the garments to the required handle.

The following recommendation is based on a rotary finishing machine.

Water temperature: 40°C
Liquor ratio: 20:1 (20 Litres of water for every kilogram of garments)

Bath 1:
- 5-10% of non-ionic detergent based on weight of goods
- Run for 3 minutes
- Drain and rinse

Bath 2:
- 2-5% detergent, based on weight of goods
- Run for 3 minutes, depending on the handle required. For a softer handle extend the time in this bath
- Drain and rinse
- 1.5% Softener maximum. Run for 10-15 minutes
- Standard tumble dry 70-80°C (60°C for light shades), until dry. Do not over dry
